quick start guide

Powering On/Off:

To turn on: push power/pairing switch to center position. A tone will sound indicating the power is on and LED light will begin to blink.

To turn off: push power/pairing switch to off position. LED light will stop blinking.

Connecting Your Device:

1. Make sure your device is in Bluetooth® discovery mode.
2. When power is on and LED light is blinking, pull down and hold the power/pairing switch in the SYNC position for approximately 3 seconds. The LED will begin to flash rapidly.
3. Release the power/pairing into the center position and choose 'SYNC by 50' on your pairing device (New phones will connect automatically – some phones may require password '0000' to be entered).
4. Once connected, the next time the SYNC by 50 On-Ear Bluetooth® headphone is turned on, it will automatically connect to your device.

Listening to Music:

Using Bluetooth: Once your device is connected to the SYNC by 50 On-Ear Bluetooth® Headphone, begin to play music and you will be listening wirelessly.

Using 3.5mm Audio Cable: Instead of using Bluetooth® to listen wirelessly, you may also use the supplied audio cable to listen. Simply plug the straight end of the audio cord into the 3.5mm jack on the headphone and the other end into your device.

Free Your Music...

Keep in mind you can still listen to music with the supplied audio cord even if your battery runs low and the headphone is powered off.

Full On-Board Controls:

While using Bluetooth® to connect wirelessly, user will have full functionality* to change the volume or track as well as pause the music and answer phone calls (button functionality explained in Features at-a-Glance).

*SMS Audio does not guarantee the compatibility of all devices and functions.

Answering the Phone:

Using Bluetooth®: When an incoming call is received, simply press the center button to answer the call (hold for 2-3 seconds to ignore call). To end call, press the center button again. If listening to music, the music will pause and the phone will begin to ring. Music will resume once the call is ended.

Using 3.5mm Audio Cable: When an incoming call is received, simply press the call answer/end button on the supplied audio cord. To end call, press the call answer/end button again. If listening to music, the music will pause and the phone will begin to ring. Music will resume once the call is ended.

Auto-Power Off and Low Battery:

When the battery voltage is under 3.3V, the red LED will begin to blink. Once the battery voltage is under 3.0V, it will be automatically powered off. After 3-4 minutes of inactivity, the SYNC by 50 On-Ear Bluetooth® Headphone will also turn off automatically in order to conserve battery.

Charging Mode:

To charge the SYNC by 50 On-Ear Bluetooth® Headphone, insert the Micro USB end of the supplied cable into the port on the left side of the headphone and the USB side into a compatible USB/AC adaptor. While charging, the LED light will be red. Charging should take approximately 4 hours to fully charge the headphone and once fully charge, the LED light will turn off.
